

▲ TRAM — LIGHT

▲ LIGHT DESIGN

Inspired by the vintage industrial lights used to illuminate the Melbourne tram lines and tram yards of the 1940's and 1950's, the tram light is a nostalgic glimpse into cities of the past. It is available in black steel, copper, brass or powder coat finish.

The Silo light is available one size 290mmx240mm in raw black steel, copper or Dulux powder coat finish.
