

# ▲ BALANCE COFFEE — TABLE

## ▲ TABLE DESIGN

Made entirely of spun steel the Balance coffee table was an early exploration of metal spinning and what could be achieved utilising both the structural strength of steel and the structural strength of the cone.

The Balance coffee table is an illusion to intrigue the user and to challenge them to think about what it is they are using rather than just having a standard coffee table. The Balance coffee table is available in contrasting Dulux powder coat or with a contrasting chrome base.
